About the APM Education and Training Committee

The Education and Training Committee is an advisory committee to the Board of the APM, co-ordinating the Association's educational strategy and activities. The committee aims to ensure the educational needs of members and other professionals are met through a comprehensive education programme (face-to-face and e-learning), the production of educational resources and signposting to external events. The committee works in partnership with APM committees and other organisations to co-ordinate the quality and effectiveness of education.

This is an effective and productive committee with lots of ideas for the future. We are keen to expand on our growing Postgraduate Medical Education Special Interest Forum, and harness the use of technology to assist busy clinicians in delivering education. Candidates with skills and enthusiasm in these areas would be particularly welcome. There are likely to be further opportunities coming up so if you are passionate about education and training, please get in touch to discuss whether you are interested now or in the future.
