

Organisations Recognised with Greener Palliative Care Award for Progress in Sustainable Healthcare

Please find below the organisations or teams who have gained a Greener Palliative Care Award for their commitment to environmental sustainability within palliative and end-of-life care services.

The award celebrates organisations that are reducing their environmental impact while maintaining the highest standards of compassionate care for patients and families. From cutting carbon emissions and reducing waste to adopting sustainable procurement practices and promoting greener travel, the awardees have demonstrated that quality care and environmental responsibility go hand in hand.
